

Citizens Bond Oversight Committee Members Needed

In November 2000, the voters of the State of California approved an amendment of the California Constitution (Proposition 39) lowering the voter approval requirement from 2/3rds to 55% for school districts that provide voters a specific list of projects, a committee of appointed citizens to oversee the expenditure of funds and an annual performance audit and financial audit of the bond funds and bond projects. In addition, Proposition 39 provides that the Citizens' Bond Oversight Committee shall have at least seven (7) members who shall serve up to two (2) terms of two (2) years each.

Measure H was passed in compliance with Proposition 39, and the Hillsborough City School District is establishing a Citizens Bond Oversight Committee for this bond measure. If you are interested in serving on the committee, there are open seats; please contact the district office for an application.

West School Sewer Pipe

We are excited to bring you the latest update on the upcoming project to replace the sewer line at West School. This initiative aims to ensure our school's infrastructure's safety, efficiency, and reliability, providing an optimal learning environment for our students. Currently, in the preparatory work phase, the project team will conduct detailed inspections, surveys, and assessments to identify the specific requirements and create a comprehensive implementation plan.

New Colors for North and South School

Currently, we are in the preconstruction phase, which involves meticulous planning and preparations to ensure a successful outcome. Our dedicated design and construction team has been hard at work finalizing the details of the color palette, considering the valuable feedback received from the community.

In addition, we are in the bidding process, where we will reach out and advertise to the public to obtain competitive proposals for the project. We understand the importance of selecting a reliable, experienced contractor who delivers high-quality artistry within the allocated budget and timeline.

While the project is still in its early stages, we want to assure everyone that progress is being made behind the scenes. We are committed to transforming the exterior of North School into a visually appealing and vibrant space that reflects the spirit of our community.

Classroom Technology

We are delighted to inform you that all the necessary equipment has been successfully ordered and is being prepared for deployment to each classroom.

This significant milestone brings us one step closer to enhancing the learning experience for our students. The cutting-edge technology we have selected will empower educators and learners, providing them with the tools they need to excel in today's dynamic educational landscape.

Our dedicated team has been working diligently behind the scenes to ensure a smooth implementation process. From coordinating with vendors to optimizing the classroom setups, every detail has been carefully considered to make this project successful.
